YOUR CUSTOM-MADE

KRONE

2018 was a year of transition for the Pascal Carrier Group. It began with a new visual identity and the implementation for several years of a new marketing strategy.

With a know-how built with more than 60 years of experience, we are able to offer value-added services, at each step of the supply chain, from door to door activities. GPC logistics is present on All transport operations (road, air, sea and multimodal) and logistics (warehousing, handling, copacking with the strengths of agribusiness logistics and the logistics of wines and spirits).

We have a strategic geographic place with facilities new generation including a 20,000 m² platform in Troyes with 15,000 m² under controlled temperature, a warehouse of 4,000 m² at Troyes Area and 7,000 m² warehouse in Molsheim at Strasbourg area. We have a real know-how especially for value-added operations and we are able to offer completely door to door and personalized offers.

Our Priority is growth. Our highly professional and motivated teams are inventive, innovative and constantly question themselves in order to provide the best services to our customers and partners.

We trust the values of the company. We have a human size vision and our commitment is to share our expertise in a long-term vision, as our clients can Attest

Pascal Carrier
President

“**GPC logistics** experts
contribute to your success.”

GROUP PRESENTATION

We are located across the company **FEIDT Transports et Logistique** in Molsheim (F-67) and Troyes (F-10), Roissy Charles de Gaulle (F-95) and Le Havre (F-76) through the company **GPC Logistic et Overseas**.

Our multilingual staff (English, German, Italian and Russian) have a perfect knowledge of all regulations and rules. Global teams stay available for any personal advice and support for the success of your logistics projects.

They have experience and expertise to study, plan and estimate the budget for all supply chain operations and lead or support your project to completion. We want to offer a personalized service, to control each step of the shipment up to delivery and to notify our customers. We Can offer the following Activities in our group :

THE GROUP'S SERVICES

GPC logistics is a logistics service provider which is able to manage all stages of the supply chain.
We operate on the following trades:

MARITIME

- Ocean Freight
- Import-Export
- Brokers

SEA FREIGHT

GPC logistics is a logistics service provider which is able to manage all steps of the supply chain. Our agency, located in Le Havre, is specialized on international freight forwarding import and export. Firstly to and from Asia, India and the United States. We are certified with the **AEO label**, to organize your shipments in full or less containers, bulk or loose cargo, door to door, express and port to port.

“As overseas experts, we support you in your import / export projects”

Aurélien BONGARS
Overseas Agency Manager

OUR COMPETENCES

For import and export, we perform the following operations :

- Operations With under all Incoterms
- Documentation operations
- Consolidation of container
- Multimodal transport organization :
Sea / Road / rail / barge etc

Customs Operations :

- Customs classification of goods (HS Code)
- Export and import customs declarations
- Customs inspections operations

We are particularly committed to providing our customers with a personalized service, monitoring every step of the way from shipment to delivery and informing our customers.

We are also a 4PL service provider carrying out coordination activities between our shipper customers, their end customers and the various logistics service providers. This service allows our various shipper, producer or distributor customers to have a complete service organised by a single contact person and thus to benefit from a global and integrated service for the flow of goods and information.

MULTIMODAL

- Railway
- Waterway Barge
- Custom Brokers

MULTIMODAL TRANSPORT

GPC logistics is a logistics service provider able to manage all stages of the supply chain.

Combined transport of containers:

Combined transport of containers barge/road:

Combined transport rail/road:

“With **GPC logistics**, I am assured of the optimization of the transport of my goods!”

Christine GENNOT
Brand Manager of a textile industry company

OUR COMPETENCES

At GPC logistics, the term “combined transport” means, the combination at least of two modes within the same logistics chain in which there is no container change, even Intermodal Transport Unit (ITU : a container, swap body, semi-trailer) where the routes are operated by :

- Railway, waterway or short sea route for main,
- Road for initial and / or terminals.

Combined transport combines the benefits of the various modes of transport :

- The railway or waterway, capable of transporting large quantities over long distances,
- Road performance for the collection and distribution of the short and medium distances.

We developed this concept of combined transport, which is a way to be involved in an environmental approach to better meet your expectations in terms of competitiveness, risk management, impact reduction, cost reduction, traffic decongestion, energy saving and participation in the effort to reduce greenhouse gas emissions.

AIR

- Air Freight Forwarder
- Import-Export
- Custom Brokers

TRANSPORT AÉRIEN

GPC logistics is a logistics service provider which is able to manage all stages of the supply chain.

Our agency, located at Roissy Charles de Gaulle, is specialized in international air transport to import and export, particularly to and from Asia, India, United States and the UAE.

Equipped with the **IATA** approval (**I**nternational **A**ir **T**ransport **A**ssociation) and the **AEO** label (**A**uthorised **E**conomic **O**perator), we have solutions to manage your shipments in bulk, door to door, express and airport to airport.

“As overseas experts, we support you in your import / export projects”

Aurélien BONGARS
Overseas Agency Manager

OUR COMPETENCES

For import and export, we perform the following operations :

- Support under the terms of sale,
- Management of the documentation use,
- Organization of transport modes up to delivery

And customs process too :

- Customs classification of goods (HS Code),
- Export and import customs declarations,
- Customs inspections operations...

We strive to offer to our customers a personalized service, to control each step of the shipment and notify them.

We are also engaged in 4PL providing coordination between our shipper clients, their end-users and the various logistics service providers. The service permits to our customers, different shipper, producers and distributors to have a full service organized by a single main contact and benefits to receive a global and integrated information flow.

Networks

- International Networks
- Optimized Logistics
- Customs Monitoring

OUR NETWORKS

Connected and controlled logistics

Thanks to strategic partnerships with **GFA**, **F-Cube**, **SLN**, and **GT**, complemented by our own internal networks, GPC LOGISTICS now offers optimized door-to-door solutions, complete shipment traceability, and centralized customs monitoring.

By relying on both experienced internal teams and recognized external networks, our teams coordinate operations with a shared commitment: ensuring smooth international flows while maintaining a high level of service and responsiveness.

“We choose to work with **multiple partner networks to provide our clients with the widest range of solutions possible.”**

Michaël CARRIER
GPC logistics C.E.O.

OUR COMPETENCES

To support this global expansion, GPC LOGISTICS relies on four strategic networks:

- **Global Freight Alliance (GFA):** An international network of independent freight forwarders sharing the same standards of quality, reliability, and efficiency. This partnership allows us to offer our clients a harmonized service in over 100 countries.
- **F-Cube Network:** A global alliance specializing in logistics and freight forwarding, promoting cooperation among maritime and air transport professionals. Through F-Cube, we benefit from a worldwide network and increased negotiating power with international carriers and partners.

GLOBAL ■ ■ ■ ■ FREIGHT ALLIANCE

- **Seajet Logistics Network (SLN):** Founded in Singapore, a hub for logistics in Southeast Asia, Seajet Logistics Network brings together recognized professionals in freight transport and companies of all sizes operating in this complex sector. Logistics - including air, sea, and land transport, as well as 3PL solutions - offers significant annual growth potential.
- **GT-Global Transportation Network:** A global logistics platform leveraging e-commerce and an online public platform to provide worldwide networking services to freight forwarders and other logistics service providers. GT is not a freight forwarder but a leading logistics website aimed at offering global networking services to forwarders and other logistics providers.

Our commitment: proximity and global performance

This international growth strengthens our position as a leading player in integrated logistics. With **GFA**, **F-Cube**, **SLN**, and **GT**, GPC LOGISTICS continues to expand its horizons to support clients entering new markets, while staying true to its core values: proximity, reliability, and logistics innovation.

LOGISTICS WAREHOUSE

- Supply Chain executive
- Door to door opérations
- Global expertise

LOGISTICS WAREHOUSE

GPC logistics is a logistics service provider which is able to manage all stages of the supply chain.

We have 48,136 square meters of warehouses spread across locations :

- **Molsheim (67)** : 7,000 square meters with a storage capacity of 9,000 EPR (location pallet rack) of which 2,000 square meters are air under controlled temperature
- **Lavau (10)** : 20,000 square meters with a storage capacity of 23,000 EPR of which **15,000 square meters are under air controlled temperature**
- **Saint-Julien-lès-Villas (10)** : 4,000 square meters with a storage capacity of 5,100 EPR.
 - **Torvilliers (10)** : 7,136 square meters with a storage capacity of 5.602 EPR.
 - **Pont-Sainte-Marie (10)** : 10.000 square meters.

“We guarantee you the efficiency
and quality of **your order preparation!**”

Michaël CARRIER
GPC logistics C.E.O.

OUR COMPETENCES

Our sites are safe (fire alarm, sprinkler systems, intrusion alarm and video surveillance) and operate in radio-frequency. We are an approved bonded warehouse, national warehouse and export excise warehouse for wines and spirits.

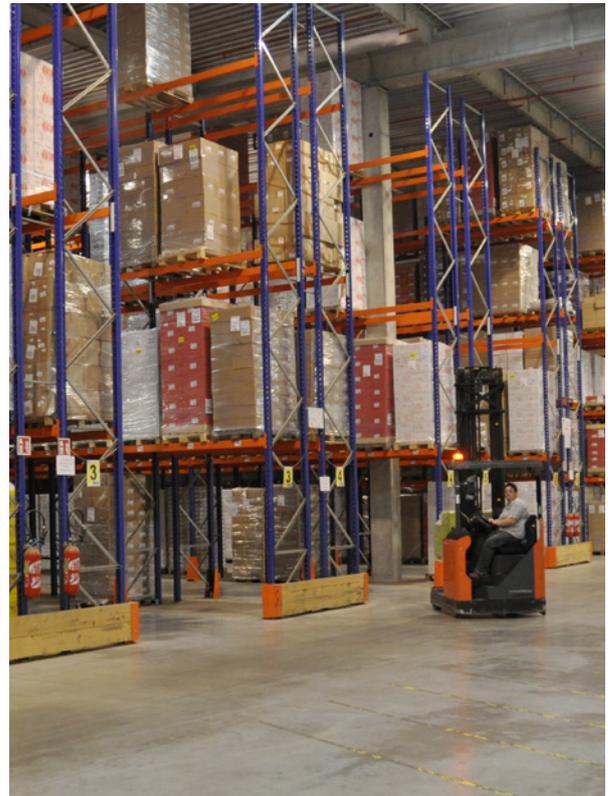

Classification : our warehouse meets the standard CIEP (Classified Installation for Environmental Protection) section 1510 and complies with current legislation.

STORAGE MODES :

- Storage rack standards : pallets 80 x 120 or 100 x 120,
- Mass storage,
- Ground storage for non-standard goods,
- Storage for textiles: flat and on a hanger,
- Storage locker.

INVENTORY MANAGEMENT :

- Inventory management is performed on the information system Infolog (WMS: Warehouse Management Systems),
- The flow control is achieved by radio-frequency,
- We create a custom labeling of each pallet or package before storage,
- Management of picking can be to the unit, the sub-package or packages,
- Inventories are performed on-demand: rotating or periodically (biannual, annual).

TRACEABILITY AND DATA STORAGE :

- Our customers benefit from a portal of secure access and real-time inventories and movements,
- We store the historical data on a six month rolling basis, (with the possibility to change for a twelve month rolling basis), which integrates the life of each product in our warehouse,
- The stock movement is automated according to the customer needs, by email or EDI standardized.

CUSTOM PACKAGING :

- Our adaptability and responsiveness allows us to offer many additional services for storage, such as the qualitative sorting according to your specifications, labeling, packing or unpacking, box making, podium assembly, reverse logistics...

LOGISTICS OF WINES AND SPIRITS

- Excise stamps
- Bonded Warehouse
- Custom Brokers

LOGISTICS OF WINES AND SPIRITS

GPC logistics is a logistics service provider which is able to manage all stages of the supply chain.

We are authorized warehouse keeper with unlimited suretyship and have approval for the storage of any alcoholic product in suspension of excise duties: beer, ciders, wines, and spirits. Our warehouses have the status of Bonded Warehouses and National export Warehouses. They are under constant temperature control at 15°C.

“With **GPC logistics, my wines are stored, prepared and routed in the best conditions. They provide all the way.”**

Charles DORFMANN
Wine Producer

OUR COMPETENCES

Our services :

- We consolidate alcoholic products at our platforms for the French market for export (EEC and Third Countries). We organize collections from all French and foreign wine regions: EEC (Italy, Spain, Portugal, Scotland, Germany, Hungary) and Worldwide (Chile, New Zealand, South Africa, Australia). Palletized freight or not, from 30 kg.
- We prepare orders: to the pallet, the package, the bottle, and we can create mixed boxes,
- We undertake custom packaging operations, including the installation of :
 - Cross-tags, labels of excise goods to Poland, Ukraine, Russia, Armenia, Belarus, ...
 - Sticker for compliance with legislation on different material: bottle, case, boxes, ...
 - CRD Capsules (Representative Capsule of Law),
 - Shrinkable caps.

Customs formalities :

- For export, we establish :
 - Export declarations (DELTA Export, TIR Carnet),
 - Certificates of origin with dispensation of the ICC'S and monitoring of DAE (Electronics Administrative Document) under the Gamma system.
- For import: we perform import clearances and the partial or total releases for consumption.

THE FOOD-PROCESSING LOGISTICS

- Controlled Temperature area
- Rack or Floor Mass Storage
- Bounded Warehouse

THE FOOD-PROCESSING LOGISTICS

GPC logistics provides customized logistical services specialized in food-processing and is able to manage the different steps of your supply chain.

We purpose necessary equipments for the storage foodstuffs in air-conditioned warehouse (15,000 sq. m.between 14° and 18°) or in room-temperate area (5,000 sq. m.) . We are also able to accomplish all your supply chain step by step, even for high seasonality products, from your producers - whatever the country may be - to the final delivery.

“We take care of your **food flows in air-conditioned warehouses and we adapt at your peaks of activity.”**

Giuseppe FRAGAPANE
Copacking Manager GPC logistics

OUR COMPETENCES

GPC logistics ensures the turnkey “food-processing logistics” through the following services :

Our Overseas agencies are able to both import and export of you :

- Organize freight transports from the production sites to their place of storage,
- Manage customs operations: customs freight classification, declarations of importations and exportations, customs controls..., ...
- Transport goods from ports and airports to our warehouses.

Our “road freight” and “forwarding agent” services are also able to organize your upstream flows, from your plants to our warehouses, as well as you downstream flows, including the management of the appointments.

Our logistical platforms ensure you the whole operations necessary to the good management of your needs:

- The receipt of foodstuffs in containers or other means of transport,
- The quality and quantity control of the goods received,
- Input by scanning with portable terminals,

CUSTOMS

International and Import/Export
Regional and National
Customs Management and Warehousing
Authorized Economic Operator (AEO)

CUSTOMS EXPERTISE

GPC Logistics supports companies in managing their transportation, import, and export operations. Thanks to recognized expertise in customs and logistics, we provide reliable, compliant, and tailored solutions that meet the demands of international trade.

“As customs experts, we support you in managing and optimizing your import and export projects!”

Davy BATAILLE
Customs Manager

OUR COMPETENCES

Our teams of specialists work daily to secure and optimize your international flows. GPC Logistics handles all your customs formalities, whether for routine operations or specific services, ensuring regulatory compliance, smooth processes, and timely execution.

Our status as an **Authorized Economic Operator (AEO)** enhances the security and reliability of your international operations through simplified procedures recognized by customs authorities.

All operations are digitized via our EDI system, providing secure, real-time access to all your customs documents.

A Comprehensive Service Offering

GPC Logistics provides a full range of services to meet client needs:

- Complete document management and processing
- Handling import and export customs procedures
- Management of customs and bonded warehouses
- Ongoing regulatory monitoring and personalized advice
- Reporting tailored to operational and strategic requirements

Remote Customs Clearance

GPC Logistics also offers a remote customs clearance solution, allowing:

- Centralization and simplification of customs operations across all your sites via an experienced Customs HUB
- The ability to clear your goods at all European entry points, fully compliant and with optimal control over timelines

A Performance- and trust-oriented approach

By choosing GPC Logistics, you gain a committed partner who understands your challenges and can support you sustainably in the growth of your international operations.

IT

GPC logistics is a logistics service provider which is able to manage all stages of the supply chain.

For customers who wish it, we open a secure access via a web browser, to enable them to check their stocks, the status of their intakes, the progress of their order preparation, their reports, ...

**“With GPC logistics,
I am serene, the **traceability**
of my products is insured.”**

Pascal GERMAIN
Confectionner

OUR COMPETENCES

GPC logistics has chosen the following tools to manage its various activities :

- For logistics: WMS INFOLOG Solutions (Generix Group), proven software, rich and scalable, with wide configuration possibilities : (RF, traceability warehouse multi-clients or dedicated,
- For road transport: TMS VIEWTRANS (Groupe SMS Labruyère),
- For Overseas sea and air transport, we have chosen to develop in-house tools which meet the specific needs of these activities.

Around these products, we develop in-house tools to address the needs and constraints of each client :

- Customizing outgoing documents: logistics labels, delivery notes, ...,
- Interfacing with our TMS and with the tools and software of our customers,
- Strict control of shipments,
- Production of indicators for measuring the activity, or any other reports that our customers might need.

We are able to manage EDI messages, with our customers and theirs, our customers, suppliers and our subcontractors:

- Receipt notification,
- Picking order,
- Transport order,
- Intake report,
- Picking minutes,
- Shipping notices, ...

These exchanges are based on EDI standards. However we can adapt to any other file format for data exchange not standardized.
